

► CUFF HT3667h

H. Theophile's unique line of fin cuffs for pocket doors is an engineered solution integrating recessed pulls into a flush-mounted, wrap-around design.

The HT3667h with hammered surface is precision machined and installs with concealed screw mounting. It is available in a range of sizes and functions. Cuffs are made to order by project to suit door thicknesses and finishes, and can be combined with a concealed bolt or cremone mechanism for privacy function.

| HEIGHT | WIDTH | THICKNESS |
|--------|-------|-----------|
| 5-1/2" | 2"    | 1-3/4"    |
