

H . T H E O P H I L E

SINCE 1882

► **KNOB HT4107b - BACKPLATE HT3276b**

The HT4107b knob, an innovative design from the early 20th century, uses an unusual beaded ring and hexagonal faceting on the shaft to enliven a traditional knob form.

The coordinating HT3276b rosette echoes the knob's beaded detail on its perimeter. See HT3267b for additional backplate information.
