

► LEVER HT6000 - CUFF HT3615

From H. Theophile's unique line of door cuffs, the HT3615 is an engineered wrap-around design integrating backplates, handles, and lockset, and is available in a range of sizes and functions. Cuffs are made to order by project to suit door thicknesses, bevels, and finishes.

Shown here with the HT6000 lever, the vertical configuration of the HT3615 cuff can be combined with a variety of handles.

HEIGHT	WIDTH	THICKNESS
11"	2-1/2"	1-3/4"
11"	2-1/2"	2-1/4"
